

STEWARDS OF SUSTAINABILITY

U.S. RICE FARMERS

Over the past 20 years, U.S. rice farmers have increased yields more than 50% and...

**Reduced
land use**

35%

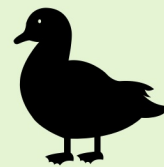

**Reduced
water use**

53%

**Reduced
energy use**

38%

**While continuing
to provide millions
of acres for
wildlife habitat**

And all without the use of genetically modified organisms (GMOs)
